Joe:

I was not involved in your contact with Anita but if she should have seen the manuscript, you should have sent it to her all along. It is at the printer and there are no changes possible.

I suggest that you discuss it with her in person and send her a copy if necessary but, as I said, there is NO possibility for a change.

Klaus,

The best I can recall is that Anita was saying she wanted to have her lawyer look at the contract but that in reading over it she had tripped on the once-a-year payment line. Saying, "I'm not going to go for that, that means they get to keep my money for extra six months." Or words to that effect.

I know that you will disagree but Anita believes she has gone the extra mile for AKP several times and that through late royalty payments and such like, you have not reciprocated. Thus, I would not expect Anita to accept your argument that it is a hardship to send royalties more than once a year.
