Subject: Bruce

Anita.

The curriculum is partly done. I have worked on the Rug Warrior part and Bruce has worked on the Wall Hugger/TuteBot part. (The Wall Hugger is an even simpler robot they have used at Wellesley HS for several years.) My original plan was to do the curriculum first then work on the second edition but Klaus convinced me it was more sensible to do the book first. So the curriculum work was put on hold. I had always seen the curriculum as separate from the book, I hope we'll be able to get back to it now.

Have you come up with any specific changes you want in the contract? I'd like to have this settled soon. I understand that bi-annual payments should be no problem.

Joe
